Subject: Jennifer L. Kelleher (Respondent); Case Number: MID20180000991

Dear Ms. Kelleher:

The Texas Department of Licensing and Regulation (Department) has concluded its investigation of the above-referenced case number. From the results of the investigation, it does not appear that there is sufficient evidence to establish that there was a violation of the Texas Midwifery Act and Rules.

At any hearing in which the Department seeks a sanction or penalty against a licensee or other individual, the burden is on the Department to prove that the licensee or individual committed a violation of the law or rules in place at the time of the alleged violation. We do not believe the evidence in this instance is sufficient to establish a violation was committed. Therefore, I am withdrawing the Notice of Alleged Violation and closing this case with no further action.

Any questions regarding this case should be addressed to Mona Skillingberg, Legal Assistant, Enforcement Division at (512) 539-5597 or e-mail mona.skillingberg@tdlr.texas.gov.

Yours very truly,

Patient JG brought in to CSR WOH by midwife JK via private vehicle ~ 4 hours post-vbac delivery for continued [REDACTED] bleeding and abdominal pain. Per report, the patient did not have a hemorrhage, but her EBL ~~was~~ was "600cc". Midwife JK reported expressing the patient "multiple times" with additional blood/clots noted. Patient JG reported having continued and severe abdominal pain since delivery. Her surgical history was notable for 2 prior cesarean sections.

Respondent provided inappropriate care to patient by performing a planned home /vbac delivery for a high risk patient with 2 prior cesarean deliveries and a macrosomic fetus. There was a long delay in transport of this patient to a hospital setting, in addition to lack of appropriate knowledge about the hospital setting that the patient was brought to (no blood bank or in house OB/GYN). The [REDACTED] encountered were extensive and severe - and seen with forcep deliveries.
